In this Calendar we have tried to give auspicious times for various activities like starting new business, buying various things, joining new jobs, matrimonial, births, closing important deals and other day to day activities. It is always advised to consult your family priest or astrologer for Muhurth as for the above and important samskaras like Weddings, Upanayanam, Seemantam, etc. or you can avail our services by calling us at above phone numbers or by emails. Since Rahukalam is not observed in several traditions and is not counted as a dosha in Astrology, we haven't considered Rahukalam for auspicious times in this calendar. Hence we advise you to watch Rahukalam timings if you are particular about that.

Beholding Sri Rama, standing absorbed in thought on the battle-field, exhausted by the fight, and Ravana facing him, duly prepared for an encounter, and approaching Sri Rama, the glorious sage Agastya, who had come in the company of gods to witness the encounter now spoke as follows:

Rama, O mighty-armed Sri Rama, hearken to the following eternal secret, in the form of a holy, eternal, immortal and supremely blessed and excellent incantation, entitled the Aditya Hridaya, the blessing of all blessings, by means of which, my child, you will conquer once for all your adversaries on the battle-field, and which is calculated to bring victory, root out all sins, allay all anxiety and grief once for all and prolong life.

Worship the sun-god, the ruler of the worlds, who is crowned with rays, who appears at the horizon, who is greeted by gods and demons, and brings light.

Indeed he is the embodiment of all gods and full of glory and creates and sustains the gods and the demons as well as their worlds by his rays.

Indeed he is the same as Brahma as well as Vishnu, Lord Shiva, Skanda, Prajapati, the mighty Indra, Kubera, Kala, Yama, Soma, Varuna, the Pitris, the Vasus, the Sadyas, the Ashwins, the Maruts, Manu, Vayu, and the god of Fire. He constitutes created beings, he is the life-breath, the source of the seasons, the store-house of light, an offspring of Aditi, the progenitor, the sun-god, the courser in the heavens, the nourisher, the possessor of rays, the golden, the brilliant, the one whose energy constitutes the seed of the universe and the maker of day.

He has seven green horses, is myriad-rayed, full of rays, the destroyer of darkness, the source of happiness, the mitigator of suffering of his devotees, the infuser of life in the lifeless cosmic egg, all pervading and the cause of the creation, preservation and destruction of the universe. He is blissful by nature.

the ruler of all, the bringer of day and the Teacher. A son of Aditi, he bears the fire of dissolution in his womb, is bliss personified and all-enveloping, the destroyer of cold, the lord of the heavens, the dispenser of darkness, a master of the three Vedas, the sender of thick showers, and the friend of water. He courses swiftly along his own orbit, carries in him the resolve to evolve the universe and is adorned with a circle of rays. He is death, tawny and the destroyer of all. His is omniscient, all-formed, endowed with extraordinary brilliance, coppery, the source of all evolutes, the controller of lunar mansions, planets and stars, the creator of all, the resplendent among the splendid. O god appearing in twelve forms, hail to you!

Hail to the eastern mountain and hail to the western mountain. Hail to the lord of hosts of luminaries, the lord of the day.

Hail to the giver of victory, hail to the joy born of victory! Hail to the god having green horses. Hail, hail to you with thousands of rays! Hail hail to you, son of Aditi!

Hail to the subduer of the senses, the valiant one! Hail to you as denoted by the mystic syllable OM! Hail to the awakener of the lotus! Hail to you, the fierce one!

Hail to the ruler of Brahma, Lord Shiva and Lord Vishnu! Hail to the sun-god, the light indwelling the solar orb, the resplendent one, the devourer of all, appearing in the form of Rudra.

Hail to the dispeller of darkness, the destroyer of cold, the exterminator of foes, the one whose extent is immeasurable, the destroyer of the ungrateful, the god who is the ruler of lights!

Hail to you, possessing the luster of refined gold, the dispeller of ignorance, the architect of the universe, the uprooter of darkness, splendor incarnate, the onlooker of the world!

The aforesaid Lord alone actually destroys, brings into existence and sustains all that has come into being. He radiates heat by his rays and sends showers.

Planted in created beings, he remains awake when they have fallen asleep. Nay, he himself is the act of pouring oblations into the sacred fire as well as the fruit attained by those who pour such oblations.

Nay, he comprises the gods as well as the sacrifices as also the fruit of sacrifices. Again, he is the Supreme Controller of activities which are found in all living beings.

No individual celebrating the aforesaid Lord in strait, in difficulties, in the woods as well as in times of peril comes to grief, O son of Raghu!

Worship the aforesaid Lord of the universe, the adored of gods, with a concentrated mind. Muttering this praise three times, one will come out victorious in combats. You will make short work of Ravana this moment, O mighty-armed one! Saying so, the celebrated Sage Agastya thereupon left in the same way as he had come.

Hearing this advice, Sri Rama, who was endowed with extraordinary energy and had a subdued mind, found his grief immediately dissipated. Nay, feeling greatly delighted, he retained the alleluia in his memory.

Sipping water thrice and getting purified, looking intently on the sun and repeating this prayer, the valiant one experienced supreme felicity. Seizing hold of his bow and fixing his eyes on Ravana, the hero advanced with a view to attaining victory. He stood vowed to kill Ravana with an intense and all sided effort.

Delighted in mind to gaze on Sri Rama feeling supremely exhilarated on perceiving the destruction of Ravana at hand, the sun-god, standing in the midst of a host of gods, exclaimed: "Make haste!"

Panchânga (Almanac) Calendar - 2012

Panchangam: Panchangam provides five basic elements of astrology, *Tithi* (lunar day or time taken by moon to move 12 degrees), *vaara* (a day from sunrise to sunrise), *Nakshatra* (the Zodiac constellation in which the moon is found on particular day), *yoga* (half-day) and *karana* (angle between sun & moon). These are the main aspects calculated according to the Solar, Lunar and the Earth positions. These five elements play an important role in calculating the *muhurthas* (auspicious days) for any Hindu rituals. There are *three* prevalent methods of calculation for Panchangam used in different parts of India. *Souramanam* (Solar calendar - prevalent in Kerala and Tamilnadu), *Chandramanam* (lunar Calendar - prevalent in Andhra, Karnataka, Maharashtra, and other states of North India), *Baarhaspatyamaana* (Jupiterian calendar - which is said to be prevalent in North India).

Panchangam in India and US: The lunar movements calculate Tithi and Nakshatra, the main limbs of Panchangam. When one Tithi or Nakshatram begins and ends, it happens at the same instance all over the world, which is called the *Universal time*. Based on the time zones, the Tithi and Nakshatram will begin/end at different local timings in different parts of the world. Since India has a little variation in terms of sunrise/sunset, Panchangam computed for one area of the country is generally applicable to the other parts of the country as well. But when it comes to other parts of the world, same universal time should be translated into the corresponding local time in terms of the longitude and latitude. As North America's PST is 13 ½ hours past Indian Standard Time, it is not appropriate to use the calendar, prepared for Indian local time. Keeping these aspects in mind, our astrologers and scholars prepared Panchangam calculated for our local time, i.e. PST & PDT. The calendar brought to you by with all accurate calculations and times of all festivals, Eclipse and auspicious times is to be used in PST. In the current Calendar we have put all efforts to provide as many details as possible. For further details like Muhurthas, please consult our scholars, personally or through email. Daily use of this calendar helps everyone to understand and monitor the prevailing planetary forces of the day.

Accuracy of the above mentioned Panchangam attributes depending upon Moon's motion are more crucial for the reliability of Panchangam. Because Moon is the fastest among all the heavenly entities shown in traditional Panchangas, Tithi, Nakshatra, Râûi, Yoga, and Karana depend on Moon's motion. There are three popular meanings of the term Panchangam. Vedic astrology meaning "five attributes" of the day. These are:

Tithi:	Ending Moment (EM) of elongation of the Moon, the lunar day, the angular relationship between Sun and Moon (True Moon <i>minus</i> True Sun). One Tithi equals 12 degree difference between Moon and Sun.
Nakshatra:	EM of asterism of the day, that is, the stellar mansion in which Moon is located for an observer on Earth. One Nakshatra equals 13 degrees:20 minutes. There are 27 Nakshatra in 360 degrees.
Yoga:	EM of the angular relationship between Sun and Moon (True Moon <i>plus</i> True Sun). One Yoga equals 13 degrees:20 minutes. There are 27 Yogas in 360 degrees.
Karana:	EM of half of a Tithi. One Karana equals 6 degree difference between Moon and Sun.
Rasi:	The zodiac signs or Râûi - EM of the sidereal sign of the zodiac for the Moon.

Tithi: The tithi is the longitude of the Moon minus that of the Sun. First tithi (Prathama) begins when tithi is 0° and ends when it is 12°; 12° to 24° is dvitiya, 24° to 36° is Tritiya etc. 168° to 180° is Poornima, 180° to 192° is Dark fortnight Prathama 192° to 204° is Dvitiya.etc. 348° to 360° is Amâvâsya. So, there are 30 tithis -15 are called Suddha (Shukla) Paksha (Bright fortnight or waxing phase) the other 15 Bahula(Krishna) Paksha (Dark fortnight or waning phase).

The tithi of a day is usually taken to be the tithi current at sunrise on that day. Since the moment of the sunrise is not the same at all places it is to be noted that occasionally a tithi current at sunrise at one place may not be current at sunrise at another place. It is also possible for a particular tithi to be current at sunrise on two successive days. So when two successive days have the same tithi associated with them, the 1st day is called *Tridina*. It is also likely that a tithi may begin after sunrise and end before the next sunrise. In such a case a tithi is skipped over and that day is called *AVAMA*.

The concept of good timing is provided by this calendar and one can take advantage of auspicious moments by avoiding when the creative forces of this planetary system are on the wane.

A MESSAGE FROM THE TEMPLE PRESIDENT

Dear Devotees,

On behalf of Sri Satyanarayana Swamy Temple Executive Committee, I wish and pray god to shower his gracious blessings to you and your families.

"A HAPPY AND PROSPEROUS NEW YEAR 2012"

By the grace of god, we are making wonderful progress and we have successfully completed yet another year at this new temple location. We had many great events in religious, cultural and spiritual domains that were unique to whole Bay Area. Most notable events such as Sri Rama Navami, Maha Sivarathri, Krishna Astami, Vinayaka Chavithi, Dasara Navarathri and a month long Karthika Masa Deeksha Abhishekam were celebrated in this auspicious temple with a great spiritual and religious enthusiasm. Apart from that, many notable eminent religious heads and spiritual personalities from India have visited to deliver wonderful discourses. In addition, the temple also provided a beautiful platform to many organizations to promote cultural and social events. Added to that, temple (under the name of VEDA) is providing Vedic teachings and other spiritual activities to elders and the children in the temple premises to protect our culture and pass on to our future generations. Temple is also providing support health conscious specific activities such as Yoga and health camps. Part of community services, temple is encouraging many domain specialist such as immigration attorneys to provide free advice services for the community benefit.

We had a very good progress on construction activities; Many devotees are expressed their wish to build a "GARBHA GUDI" for all deities and we have initiated the process to build the same. With all your support and god's grace, the goal is to finish in the year 2012. We are in the process of fund raising for the temple construction and so far there is a tremendous response. We sincerely request all the devotees to come forward and help the temple for constructing the "GARBHA GUDI" for all the deities and make this Devine place as a "PUNYA KHSETRAM".

We had a great operations expansion side; we have formed a dedicated working committee to serve the temple in various aspects such as food and operations etc. In addition, we are also working to bring up the temple web site to show more current event information to the devotees.

We thank you all for extending your valuable suggestions and generous donations to build our pious temple for generations to come to show our values, culture and a spiritual path.

Let us all join hands together in the development of this pious abode of lord "Sri Rama sahitha Satya Narayana Swamy". !!God Bless All!!

Yours Sincerely,

P.S.K. Jagadeesh Chandra Babu

A humble note from a VEDA devotee
Sricharan Paladugu

One of the strongest pillars of 'Sanatana Dharma' the practice of the so called Hinduism is 'the Parampara', which means un-interrupted series i.e. passing from one to another.

Whether it is about knowledge or an experience or a celebration, 'Sanatana Dharma' preaches us to share them with others. This forms the basis and a strong foundation for a healthy and a happy society. I strongly believe that our 'Vedic Education and Devotional Academy' is setting an example in following such practices through their various activities. The Calendar published by VEDA every year is one such example. BrahmaSri Marepalli Naga Venkata Sastry is delighted to put immense efforts and extreme care in bringing out this Calendar cum Almanac, specifically prepared for Pacific timezone.

This Calendar provides information from details for 'Nitya Sankalpam' to festivals, auspicious times, eclipse details, sacred observances, lagnas, taara balachakram etc, which might not be found in other calendars. It also has some great slokas. Even with so many details; it has been beautifully designed and vividly presented.

I feel that we are blessed to have such a sacred place that promotes our culture and tradition and make us feel back home. This sacred service is invaluable and beyond expression and all I can think of is to encourage, appreciate and participate.

Here are a few lines of my association with the temple
Sri Gurubhyo Namah
S.R. Srinivasan

My association with the temple goes back to the preplanning days when myself and a few others were learning the Veda Mantras from Sri Venkata Sastrigaru. It was a time when we had to travel a couple of hours to Livermore and offer our prayers, have Archana/Abhishekam performed for lack of temples in the South Bay. Shastrigaru was very kind to accommodate our group of Veda students and devote a part of his residence for Veda teaching. We students very much wished that there would be a temple in the South Bay which would be an ideal place for our classes. I remember well those days when Sastrigaru was talking about his plans to found a temple and the Idols he would install and his untiring search to locate a place - may it be a rental place, may it be a piece of purchased land -- with different kinds of obstacles blocking the progress. Finally, with the grace of God, his dreams came true and a temple was started in a rental property on the 10th street. I vividly remember the elaborate inauguration ceremonies performed as per the Agama Sastras by priests local and from other end of the US and the huge gathering of devotees lasting several days. From then onwards the temple has been growing steadily with the devotion, commitment and untiring efforts of the Temple Committee, the support of devotees and above all the Grace of God.

Today we are fortunate that OUR temple has grown with its own purchased property blessed to be the abode of Satyanarayana Swami, Rama Devi, Shiva Lingam, Panchamuka Anjaneya, the Navagraha Devatas to mention a few. The temple is unique in several ways where rare - by today's standards - events are performed like the daily Kartika Masa Shiva Abhishekam and the yearly Yajur Veda Parayanam in addition to other events like SathyaNarayana Vratam on every Purnima day. In fact the temple has become an alternate place to Annavaram AP where the idols from Annavaram AP are brought over to facilitate devotees to worship Satyanarayana Swami in the same form as in Annavaram AP. The temple has become a great learning center for several disciplines like Vedic learning, Slokha learning, Music, Dance, Sanskrit, Katha Kalakshepam, religious discourses etc in addition to serving its main purpose of being a place of worship. We have eminent priests and artists whom Sastrigaru has been identifying and bringing over from India to make all these possible. The temple has great plans for the future arising out of the immense enthusiasm and inspiration of each and every member of the temple committee. You see these plans in action as you enter the temple - You see every mile stone being achieved as days go by.

I feel myself blessed by the Lord that I have been associated with the temple right from its formative stages and I pray to God that I will have this fortune for all

O brother, ponder over the truth of all these. सत्सङ्गत्वे निस्सङ्गत्वं निस्सङ्गत्वे निर्मोहत्वम्। निर्मोहत्वे निश्चलतत्त्वं निश्चलतत्त्वे जीवन्मुक्तिः॥१० 10. Association with the good brings about detachment towards worldly pursuits. Detachment leads to freedom from delusion. From freedom from delusion arises constancy of the mind (in meditation on the supreme Being). Constancy of the mind leads to liberation even while alive.					1 Krishna Padyami: 6:45 Poorvabhadra: 17:40 RahuK: 9:53-11:30 Varjyam: 27:47-29:28 Dur: 6:39-7:31; 7:31-8:22 Sunrise at: 6:39 Sunset at: 19:34 Excellent: ----- Average: 8am – 5:45pm

Sri Rama Sahayam

A Humble Note

A Message from the Founder Chairman – Chief Priest of VEDA

Sri Marepalli Naga Venkata Sastri

At the very beginning, I would like to extend my heartfelt and prosperous wishes for the New Year 2012 ahead to all the devotees of VEDA – in the bay area as well as from all parts of the country. I sincerely pray to the LORD to bless all of you with health, wealth and prosperity on this occasion of New Year and also forever. I recognize that Sri Satyanarayana Swamy Devasthanam – VEDA – has grown from its humble beginning 5 years ago at a leased accommodation to this permanent location in Milpitas entirely due to the constant, continuous support & patronage from all the devotees of the LORD. As you all know, within the very short span of time since, we moved to this permanent location for swamy, we had the opportunity to arrange and host many discourses, lecture programs and musical events and other programs by eminent Scholars, Artists, Pandits and Spiritual Leaders at the Devasthanam whenever they were in the bay area. Notable among them during 2011 were, Mahabharata Saptaham by Sri Vaddiparti Padmakar Garu, Discourse on Devi Bhagavatam by H.H. Swami Siddheswarananda Bharati of Sri Siddheswari Peetham, Kurtlam, Bhagavatam Discourse by Brahmasri Samavedam Shanmukha Sarma Garu, Discourse on Sri Krishna Devaraya's Amuktha Malyada by Dr. Medasani Mohan Garu and a Workshop on Daily Worship by H.H. Tridandi Srimannarayana Ramanuja Chinna Jeeyar Swami, Voco-Solo-Violin concert by Sri Hari Atchuta Rama Sastri Garu. We also arranged the Veena Jugalbandi event at the Spangenberg Theater, Palo Alto as a Fund Raiser event for the Garbha Gudi construction. All of these events were very well supported by our Executive Committee and attended once again by all the Devotees of VEDA and their friends as well. Of course, all these events could not have been possible without your support and patronage.

This calendar provides the vital and important details like Tithi, Varam, Nakshatram, Varjam, Rahukalam & Durmuhurtam required for us in our daily life and for observing our rituals as well. These details have been prepared to suit the Geographical Coordinates of Longitude and Latitude of the California Bay area. In addition, we had also provided a daily chart of Auspicious Days and Time – divided into Excellent and Average times. Devotees while looking for an auspicious time for a given are advised to omit any applicable Ramukaram, Varjam and Durmuhurtham for that day. This is very important to be noted.

While thanking all the devotees for all their unwavering effort and support extended so far, I would also request and sincerely pray that all the devotees will extend similar support for all our future projects such as GARBHA GUDI construction and PRANA PRTISHTHA. We will continue the VEDA tradition to welcome and host any eminent scholar, artist and/or Spiritual Leader visiting the bay area to visit the Devasthanam and share their wealth of knowledge and provide the opportunity to all our Devotees to listen to them. At the end, I would request you to please let me know by email (vedapandit@gmail.com) or phone 510-673-7938 if you see any mistake or omission in this calendar. We will make all efforts to communicate the correction to all the Devotees.
